

Contents

1. Introduction to PromoBio Project	1
2. Overview of Forestry, and Wood Fuel Supply Chains	3
2.1. Austria	5
2.1.1. Forestry and Wood Fuel Supply and Use.....	5
2.1.2. Harvesting Technologies Including Chipping and Drying.....	7
2.1.2.1. Felling	7
2.1.2.2. Forwarding	8
2.1.2.3. Chipping	10
2.1.3. Storage and Transport Logistics.....	10
2.1.4. Wood Fuel Quality.....	12
2.2. Finland	14
2.2.1. Forestry and Wood Fuel Supply and Use.....	14
2.2.1.1. General	14
2.2.1.2. Forest Energy in Finland	16
2.2.2. Supply Systems for Forest Chips.....	18
2.2.3. Transport Logistics.....	26
2.2.4. Wood Fuel Quality.....	28
2.2.4.1. Quality Management	28
2.2.4.2. Quality Standards	29
2.2.4.3. Moisture	30
2.2.4.4. Impurities.....	32
2.2.4.5. Chemical Composition	34
2.2.4.6. Particle Size	34
2.2.4.7. Origin of Wood.....	35

3. Combustion Technologies and Heating Systems	37
3.1. Parameters Influencing Biomass Combustion Processes	39
3.1.1. Fuel Quality.....	39
3.1.2. Combustion Temperature	39
3.1.3. Mixing and Residence Time	40
3.1.4. Process Control	40
3.2. Biomass Boilers	41
3.2.1. Top Feed Burners.....	41
3.2.2. Underfeed Burners	41
3.2.3. Horizontal Feed Burners	42
3.3. Biomass Boilers	44
3.3.1. Fuel Receiving and Storage	44
3.3.2. Fuel Feeding.....	45
3.3.3. Combustion Technology	47
3.3.3.1. Stoker Combustion.....	47
3.3.3.2. Grate Combustion	48
3.3.3.3. Fluidised Bed Combustion.....	52
3.3.4. Fuel Sampling	53
3.4. Biomass District Heating Systems.....	54
3.5. Applications for End Users	55
4. Investment Costs and Profitability of Biomass Heating Plants	57
4.1. Austria.....	59
4.1.1. Investment, Operating Costs and Profitability	60
4.1.1.1. Specific Investment Costs for Heating Plants	60
4.1.1.2. Specific Investment Costs for Heat Distribution Network.....	60

4.1.1.3. Electric Auxiliary Energy Demand of Biomass Boilers	61
4.1.1.4. Profitability Calculation	61
4.1.1.5. Heat Demand Density (q_{area})	62
4.1.1.6. Transport Performance (p_{network})	63
4.1.1.7. Connection Density (q_{network})	63
4.1.1.8. Thermal Losses from Heat Distribution	64
4.1.1.9. Annual Efficiency	65
4.1.2. Funding Possibilities	66
4.1.2.1. Feed-in-tariffs	66
4.1.2.2. Federal Funding	66
4.1.2.3. Provincial Funding	67
4.1.3. Sample Calculation for Realised Investment Example	67
4.2. Finland	69
4.2.1. Investment, Operating Costs and Profitability	69
4.2.2. Funding Possibilities	72
4.2.3. Sample Investment Calculation for a Realised Heating Plant.....	72

5. Business Models Covering the Entire Wood Heat Supply Chain.....	75
5.1. Case Studies from Austria: Development and Management of Wood Heat Business	77
5.1.1. Associative Forest Management Communities (AFMC).....	77
5.1.1.1. Austrian Forest Communities	77
5.1.1.2. Provincial Forest Communities.....	78
5.1.1.3. Associative Forest Management Communities (AFMCs)	80
5.1.1.4. Example AFMC-Gaming	81
5.1.1.5. Profitability of AFMC-Gaming	83

5.1.1.6. Organisation and Handling of Current Businesses within AFMCs	83
5.1.1.7. Strengths and Weaknesses	85
5.2. Applicability of Models from Austria – Contracts and Economy	86
5.2.1. Bioenergie NÖ Ltd. (Niederösterreich).....	86
5.2.1.1. Description Bioenergie NÖ	86
5.2.1.2. EXAMPLE – Heat Plant Hofstetten Grünau.....	88
5.2.2. Biomass Logistic and Trade Centres.....	89
5.2.2.1. Description of Biomass Logistic and Trade Centres	91
5.2.2.2. Biomass Trade Centre Pölstal	93
5.3. Case Studies from Finland: Development and Management of the Wood Heat Business.....	94
5.3.1. Case–VakkaLämpö Co-operative, Toivakka, Central-Finland	94
5.3.2. Case–Joutsan Ekowatti Oy (Ltd.), Joutsa, Central-Finland	97
5.4. Contracts and Economy of Biomass Heating Business in Finland	100
5.4.1. Contracts	100
5.4.2. Business Models	106
5.4.2.1. Investment by Customer	106
5.4.2.2. Investment by Entrepreneur	107
5.4.2.3. Large-scale Enterprise: A Network Model	108
5.4.2.4. ESCo	109
5.4.2.5. Franchising	110
5.4.2.6. Biomass Heat Containers.....	111
6. Short Description of Situation in Wood Fuel and Biomass Heating Business in Each Pilot Region	113
6.1. Poland	115
6.1.1. Description and Situation of the Region	115

6.1.2. Costs, Operation and Applicability	117
6.2. Romania	118
6.2.1. Description and Situation of the Region	118
6.2.2. Costs, Operation and Applicability	127
6.3. Slovakia.....	130
6.3.1. Description and Situation of the Region	130
6.3.2. Costs, Operation and Applicability	132
